ENERGYWATCH ADVERTISING RATE CARD 2004

EnergyWatch is the education journal, produced by CREATE to inform subscribers about energy efficiency and sustainable development. EnergyWatch currently enjoys a readership of over 90,000 professionals in schools, colleges and local authorities. In addition, it is downloaded from our website by some 3,000 visitors per month.

EnergyWatch is sent directly to all primary school head teachers and secondary school heads of science in England, as well as Energy Managers, Sustainability and Housing Managers in all UK local authorities. It also has over 4,000 individual subscribers throughout the UK. Our last survey indicated almost 50% of the readership has followed up an article at some time.
